PROFILE

Experienced software developer with a history of working in several roles in companies of different sizes. Has a passion for mobile (iOS/watchOS/tvOS) development, but also loves to play around with macOS or backend development every now and then.

EXPERIENCE

Mobile iOS Software Engineer, Facebook; Menlo Park, California 2019-Present
Working in the WhatsApp iOS Core Messaging team as an iOS engineer.

Lead iOS Developer, Reservamos; Monterrey, Mexico 2018-2019
I lead engineering & design for reservamos.mx iOS mobile application. I created the iOS application from the ground up. Also manage and coordinate both the mobile iOS and Android projects, and I interview and train new junior developers that we onboard.

Independent iOS/macOS developer 2013-Present
In my personal time I like to work on my own projects, for fun and learning. Some are indie apps or lately a couple of open source projects in Swift.

Senior iOS Developer, Icalia Labs; Monterrey, Mexico Feb 2016 - Jan 2018
Worked directly with the companies clients on functional requirements, design and ultimately development of several iOS applications. Was in charge of managing the design and backend/API work, but also doing the iOS development. I also trained interns.

iOS Developer, Icalia Labs; Monterrey, Mexico Feb 2015 - Feb 2016
Worked on updating and refactoring existing client's iOS applications, as well as implementing new one's from the ground up.

iOS Developer Intern/Junior, Basanty; Austin, Texas Aug 2013 - Aug 2014
Worked on Basanty's iPhone and iPad applications. Started out as an intern while finishing my degree, but got a full time job there after graduation. Was in charge of re-writing the app from the ground up for a new release.

iOS Developer Intern, Innku; Monterrey, Mexico Summer 2013
Worked on fixing bugs, refactoring and updating a cooking recipes application of one of the company's clients.

EDUCATION

ITESM, Monterrey, Mexico — B.S. Computer Science, 2008 - 2011 (Transferred to St. Edwards)

St. Edwards University, Austin, Texas — B.S. Computer Science, 2012 - 2013

SKILLS

Bilingual (English, Spanish).

Swift, Objective-C, C; iOS, macOS;

Framework/Library development, open source creation & contribution, product design, client relations, functional requirements gathering, app UI/UX design, REST API's, mobile databases, etc...
